

Houston, TX, 24 May, 2017

## **John Toubassi appointed Chief Operating Officer at OMNETRIC Group**

John Toubassi has re-joined OMNETRIC Group as Chief Operating Officer (COO). In this global role, John will be focused on operations, innovation and delivery excellence of the company's smart grid solutions worldwide.

John left OMNETRIC Group in 2015 in order to pursue an opportunity with the Houston based utility, CenterPoint Energy. As Director of Advanced Metering Systems (AMS), his organization supported 2.4 million customer endpoints within CenterPoint Energy's Electric Operations including responsibility for system operations, meter to market delivery and AMI based innovation. John was also a member of CenterPoint Energy's Emerging Energy technical subcommittee, studying decentralized energy sources affects on the utility of the future.

John has 25 years of software, systems integration and business consulting experience working with utilities, including two and a half years with Siemens and over 12 years with IBM prior to his previous tenure at OMNETRIC Group. He brings knowledge of Siemens products relevant to digital grid transformation—in addition to other vendors—and experience of large and small project delivery and project quality assurance.

John lives in Houston with his family.

### **About OMNETRIC Group**

OMNETRIC Group is dedicated to the global delivery of integrated information technology and operational technology solutions and services, helping utility companies to achieve greater grid reliability and efficiency. OMNETRIC Group is a joint venture between Siemens AG and Accenture. Combining Siemens' leading energy technology product portfolio with Accenture's systems integration, consulting and managed services capabilities, OMNETRIC Group can support clients with innovative solutions wherever they may be on their path to a smarter grid.
