

Helping energy providers discover and exploit data intelligence to capitalize on industry change, and realize new business models

Mindsphere, Siemens open Platform-as-a-Service (PaaS), enables OMNETRIC to deliver solutions providing an integrated view of data, systems and operations, real time.

OMNETRIC is a MindSphere app developer and a MindSphere system integrator.

A tablet displaying the OMNETRIC MindSphere apps for energy interface. The screen has a dark blue background with the title "OMNETRIC MindSphere apps for energy" in orange. Below the title are three orange boxes with white text. The first box contains a lightbulb icon and the text "Grid and energy management specific". The second box contains a Venn diagram icon and the text "Data analytics + IT + power engineering expertise embedded". The third box contains a power line icon and the text "With complex data integration / multi-dimensional data enrichment".

OMNETRIC MindSphere apps for energy

- Grid and energy management specific
- Data analytics + IT + power engineering expertise embedded
- With complex data integration / multi-dimensional data enrichment

MindSphere – cloud-based, open IoT operating system

- connects machines and physical infrastructure to the digital world
- enables powerful industry applications and digital services
